Soldiers Given Instructions.

Washington, Jan. 22.—Federal army officers commanding troops wherever strikes or riots may occur are warned by instructions announced today at the war department against participating in questions of a political character or the equity of disputed issues existing between the parties to a controversy.

The United Kingdom leads all the countries in the world as a market for the domestic farm and forest products of the United States. During the last 10 years the United Kingdom averaged annually 59 per cent of all farm and forest products exported.

Those who were instrumental in passing the federal migratory bird law in 1913 may well feel proud of themselves, bird census data indicating an increase of from 10 to 100 per cent in the water fowl breeding in a number of specially examined localities.
